ETAT Participant and Facilitator Course Small Group Assignments

The goal is to assign each participant a number for both the duration of the participant course and/or facilitator course. For small group work (skills stations, case scenarios, etc.) simply divide participants into groups according to number of facilitators. If doing a 1-week course involving both courses, consider rearranging small group numbers for variety. Below is an example of how to divide participants:

Participant course

Group A: participants 1, 2, 3, 4, 5, 6
Group B: participants 7, 8, 9, 10, 11, 12
Group C: participants 13, 14, 15, 16, 17, 18
Group D: participants 19, 20, 21, 22, 23, 24

Facilitator course

Group A: participants 1, 7, 13, 19, 24, 18
Group B: participants 2, 8, 14, 20, 12, 6
Group C: participants 3, 9, 15, 21, 23, 17
Group D: participants 4, 10, 16, 22, 11, 5
